To whom it may concern:

Ronald Brenes owner of Etch Houston, has been a vendor with me for the past three years. I have used for gold plating, stripes and window tint. His work is great. I have never had a problem with any of it. I have even used him on my personal vehicles.

A handwritten signature in black ink, appearing to read "Bob 'Murf' Murphy". The signature is fluid and cursive, with a long, sweeping underline that loops back to the left.
